

# Localizing National Drag Bans

**Group Members: Michal Szczepaniak, Ashleigh Kendrick,  
Anneliese Cornejo-Garcia, Shawn Sloan**

## Colour Scheme

Because our project is so centered around the LGBTQ+ community, we plan to incorporate the colors of the gay pride flag throughout our final website. We do deal with some sensitive topics, but by making the color scheme bright and fun (instead of dull colors like blacks, grays, etc), we hope to convey a more uplifting message with our work.

## Font Types

Sticking with the boldness of our rainbow color scheme, we hope to utilize an eye-popping font (similar to the Foda Display font used throughout this presentation) for our headlines and sub-headings, while using an “easier to read” font, like Montserrat for the body text.
